SUMMARY

Frontend-focused software engineer and entrepreneur with strong experience in React, TypeScript, and cloud-native development. Proven track record building scalable applications with Python, Node.js, and AWS. Founder of an e-commerce platform; passionate about UI/UX, product design, and contributing to meaningful software in Japan's tech ecosystem.

EDUCATION

University of Lagos

B.Sc. in Computer Engineering

– Relevant Coursework: Data Structures & Algorithms, Distributed Systems, Operating Systems, OOP, Cloud Computing, Computer Architecture

Akoka, Lagos, Nigeria

January 2022 – June 2027

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, SQL, C++

Frontend: React, Next.js, UI/UX Design Principles

Backend: Node.js, Spring Boot, REST APIs, JWT, Prisma ORM

Cloud & DevOps: AWS (EC2, S3, RDS, Amplify), Docker, CI/CD, GitHub Actions, Jenkins

Environments: Linux, macOS, Unix-like systems

LEADERSHIP & STARTUP EXPERIENCE

Shopbelly

Founder & Full-Stack (Backend-Leaning) Developer

- Founded and led the development of a modern, cloud-native local commerce platform for small businesses.
- Built user-facing frontend in React and TypeScript, including search, store pages, and responsive checkout UI.
- *Prototype:* shopbelly.vercel.app (65% features; full demo upon request).

Jan 2025 – Present

Lagos, Nigeria

PROFESSIONAL EXPERIENCE

Coach John

Software Engineer Intern

- Contributed to a React-based educational platform for 1,000+ learners; optimized UI responsiveness and layout.
- Collaborated with backend team (Python/PostgreSQL) and managed deployments via AWS Amplify and Docker.
- Led agile sprint planning and product iteration cycles based on feedback from real learners.

April 2025 – Present

Remote (NGO Project)

Marigold Signature

Software Engineering Intern

- Developed full-stack features using Node.js and PostgreSQL with a focus on authentication and payments.
- Integrated automated testing and monitoring pipelines for performance and reliability.
- Worked in agile teams using Git, JIRA, and collaborative sprint planning.

Oct 2023 – Dec 2024

Lagos, Nigeria

PROJECTS

SalesFlow Analytics

- Built a full-stack analytics dashboard with Python ETL pipelines and a dynamic React UI; reduced data latency by 85%.

Next.js, Python, AWS EC2, Docker, PostgreSQL

Inventory Management System

- Developed a web-based inventory app handling 100+ daily transactions; built responsive UI components with React.

Next.js, Prisma ORM, RDS, Amplify, CI/CD

HACKATHON

SnapCart (Bolt.new Hackathon)

- Developed a responsive React/Next.js shopping app with camera-based product scanning and real-time cart updates.
- Led UI design and presented live to judges — praised for simplicity and polish.
